**Organization Chart:**

**The Business**

An extract of one of the main objects of Memorandum of Association of the Company is reproduced below:

“To carry on the business of providing housing finance, in all its wide and contemporary meaning, alone or jointly with other housing finance companies and/ or banks in consortium or otherwise, to any person including individual, company or corporation, body corporate, firms, society or association of persons, public body or authority, supreme, local, or otherwise or other entities whether private or public sector, whether engaged in construction and development of buildings, offices or other infrastructure development or not, for or in respect of dwelling units, to provide finance or credit to borrowers for acquisitions (in all its connotations), purchase, repairs, construction, renovation, renewal, remodeling, extension, enlargement or erection of or to land, tenements, flats, houses, apartments, villas dwelling units, skyscrapers, co-operative housing society units, housing colonies, townships, including infrastructural facilities relating thereto or any part or portion thereof in India for residential purposes and/ or commercial purposes either with or without interest or subsidized interest or with or without security upon such terms and conditions as the company may think fit, to own or sell residential dwelling units on lease, hire purchase or conditional sale basis, and to carry on the business of asset based financiers in any manner whatsoever, to provide consultancy and advisory services in all matters and issues relating to housing, building and construction activities including relating to infrastructural development.”

**Management perception of Risk factors**

FIHFCL is a wholly owned subsidiary of Fullerton India Credit Co Ltd. By virtue of parent-subsidiary relationship, FIHFCL is expected to benefit from synergies in the form of using its well-defined risk management policy framework for identification, assessment, and control to effectively manage risks associated with the various business activities. The FIHFCL risk management approach is based on a clear understanding of target market, environmental scanning and disciplined assessment and mitigation.

The Company has a risk management architecture independent from business to ensure impartial oversight. The various risks relating to the business and their mitigation are detailed below:

a. **Credit risk**

This refers to risk of delay or defaults in payments by borrowers. High levels of customer defaults could adversely affect business plans, financials and credit worthiness. This can be mitigated by strong and independent credit, data based credit appraisal, proactive segment level monitoring and collection processes. Dynamic bureau data usage and deep portfolio analytics shall be extensively used by the Company once the company garners enough data over a period of time for driving risk management actions.

**b. Operational risk**

The company is prone to operational risks due to employee errors, fraud and technology related issues, unauthorized transaction by employee or third parties, misreporting and non-compliance of various statutory and legal requirements and operational errors. This risk is moderated via independent operational risk framework which assesses, highlights forward looking risks and specifies mitigants. Key control standards are implemented across businesses. Processes and functions are regularly reviewed. The Company leverages on Operational Risk Management Committee (ORMC) of the parent entity, i.e. FICCL, which oversees this function.

**c. Market and Liquidity risk**

Interest rate risk is inherent to the Company's business as a borrower of funds. Of late, the Company has initiated wholesale institutional funding and such dependence is likely to grow over a period. Therefore, a rapid change in the risk appetite of lenders can adversely affect its funding plans. An independent and focused Asset Liability Committee (ALCO) tracks and monitors market indicators with a view to reducing this risk. Further, active diversification of lenders, matching asset - liability tenor and maintaining adequate liquidity buffers substantially reduce this risk.

**d. Legal and Compliance risk**

The Company is regulated by various statutory and/or regulatory authorities. Non adherence to any provisions or varying interpretations of existing guidelines may result in regulatory or legal actions with attendant costs. Strong internal processes and continuous monitoring and review of regulations mitigate this risk. An independent legal and compliance team oversees this activity.

**e. Human Capital and Resources**

The operations of the Company are dependent on the availability on skilled and experienced personnel. Employee attrition hence poses a risk. Strong human resources policies and employee engagement can reduce this risk. An independent Human Resources team plays an enabling role in creating an environment of growth and development for the Company's employees. With a vision to be an 'Employer of Choice', this team builds a culture that fosters Integrity, Meritocracy, Teamwork and a sense of Community. This in turn inspires employees to perform and succeed.

f. **Excessive Competition**

The Company faces competition from too many established commercial banks and HFCs chasing limited market segment, which makes the overall proposition less attractive. The Company also faces increased competition from new HFC's foraying into this space and some of which have been quite aggressive in their pricing to garner market share. However, the market for affordable housing remains large. By careful assessment of the customer segment and choosing optimal geographical locations this risk is minimized.

**Changes in the Capital Structure**

The following changes have been made to the Capital Structure (Authorized, Issued and Subscribed) of the Company.
